MICHIGAN CENTRAL RAILROAD.

THE "NIAGARA FALLS ROUTE."

As the name implies, the Michigan Central runs through the central and best portions of the great State of Michigan; its lines extending from Chicago to Buffalo and Niagara Falls via Detroit, from Jackson to Bay City via Lansing and Saginaw, from Mackinaw City to Toledo via Bay City, East Saginaw and Detroit, and from Detroit to Grand Rapids via Jackson, in addition to the Air Line from Jackson to Niles, and branches to South Haven, South Bend, Joliet, Caro and Five Lakes.

These Lines tap all the principal cities and towns in Michigan, and lines of Through Cars are run between all of these cities.

The Passenger Equipment of the Road during the past year has been largely increased and improved, and everything that modern science and skill have done for the comfort and safety of railroad travelers can be found in the Michigan Central Trains. Smoking Cars with Revolving Chairs, and richly upholstered Drawing Room Cars are run on the Day Trains. New, Spacious and Palatial Sleeping Cars are run on all Night Trains, and on the Main Line Expresses, the justly famous Dining Cars will be found to supply in an elegant and wholesome manner, meals that are praised by the epicures of our Country.

There are many advantages for all classes of travelers to be had by taking the Michigan Central Trains, that cannot be found on rival lines and we can safely recommend it to all travelers.

Through Cars are run without change in both directions between Chicago, New York and Boston; St. Louis, New York and Boston.

CAUTION.

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting moneys in advance. BEFORE SIGNING ANY ORDER, SEE THAT IT HAS THE NAME OF R. L. POLK & CO. PRINTED THEREON. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertisements or subscriptions.
